Leaders,

I'm in need of \$46,227.34 removal funds for the deployment of the Aspect Plane to Deer Park, TX response. I won't be able to process the PR unless I have an email approval granting those funds as supporting documents in that PR request. Thank you for your time and support!

Very Respectfully,

Kellon,

Understood. As long as you know the contract number and OAS destination (Ross Miller and Eric Langett) then it's all about your internal Regional routing for approval. Every place seems to be slightly different.

Tim,

Good afternoon, my branch has a new process. I can initiate the PR for you, but you will have to get funding approval from Chris Petersen, Monica Smith or Bryant Smalley for my Budget Coordinator to process the request. I have all the documents that I need just the approval from a Branch Chief.

Very Respectfully,

Adam and Kellon,
See the attached files for the SOW and IGCE for the ASPECT deployment to Deer Park for the ITC tank fires. This is based on four days of flights including last night. If you think this will go longer give me a call and we can discuss how to modify the IGCE appropriately.

That works just fine Adam. It will be in the ball park and I will go with that.

Mgmt is asking to plan for utilizing the aspect mid day Today thru wed. So, a total of four events. As the incident is progressing, I don't foresee cutting that short, but then it could happen.

Apologies for not having a more firm estimate.
Adam

Gentlemen,

I do not currently have an estimate of the ASPECT deployment costs for this latest response. I thought we were done yesterday and it would have been pretty easy. The discussion now is for a longer term monitoring mission. If someone would give me a ball park estimate of the number of days the service is needed I will pull something together to help get the PR ball rolling.
